

Loïc Bigeard

Looking for a cybersecurity manager or engineer position

Passionate about new technologies, cybersecurity and computer science I'm seeking a cybersecurity expert position to put to the profit of the company my cybersecurity, programming, project management and regulatory skills.

As a multi-passionate creative thinker, I thrive on strategic challenges, I will bring to the table new solutions propositions and innovations thanks to my experience in both consulting and engineering.

Education

- From 2020 to 2023 • **Engineering degree**
Polytechnic Institute of Paris - Telecom SudParis Paris-Saclay, Palaiseau, France
Engineering degree in computer science specialized in cybersecurity.
- From 2018 to 2020 • **CPGE PCSI/PSI**
Lycée Henri Poincaré Nancy, France
Intensive preparation for the national competitive entrance exams to leading French engineering schools specializing in sciences (computer sciences, math and physics)
- From 2015 to 2018 • **Scientific Baccalauréat**
Lycée Henri Poincaré Nancy, France
Math 100% Computer Science 90% Biology 85% Physics 75%

Experience

- Since February 2023 • **IT Risk Consultant**
PwC France Neuilly-Sur-Seine
 - Cybersecurity and GRC consulting (Governance and Organization, Incident Management, Risks Management, ISMSs, ISO27001, DORA, NIST, Change Management, EBIOS) for companies' executives, CIOs and CISOs
 - Carrying out Cyber and IT internal audits and risks evaluations (Regulatory controls, BCP and recovery plan review, GDPR checks, IT architecture review)
 - Conception of a User Access Management tool
- From July 2022 to August 2022 • **Software engineer**
Kaefer Luxembourg
 - Conception of a software to centralize orders of the company and to track stocks and supplies.
 - Designed front and back-end of the software
 - Handled the security of all the software
 - I started the project during the summer of 2018 and got the project again in 2022 to add new features.
- From May 2021 to May 2022 • **Vice President**
BPM
Managing a team of 27 people for the organization of large events, I was responsible for the design and technical aspects of musical events (lighting, sound, scene)
- From June 2021 to July 2021 • **Software development internship**
ENGIE Solutions Nancy, France
During this intership, I developed a software (with a full UI) extracting and analyzing data to help the compagny improve its efficiency.

Skills

Soft Skills

Flexibility, Leadership, Problem solving, Teamwork, Project management, Customer relationship

Programming

Java, Python, Web (React, JavaScript, HTML, CSS), NodeJS, ElectronJS, C, C++, SQL

Other Computer Skills

Office Tools (Office and Adobe Suite), Server Management (Linux/Windows), Cyber tools (SIEMs, QRadar, SOC, Wireshark,...)

Extracurricular activities

KRYPTOSPHERE

- Learning the details of the blockchain technology and Solidity
- Creating blockchain based projects using smart contracts with Solidity

Sports : Triathlon / Climbing

Competition in triathlon since 2010

Languages

English

C2 Level, TOEIC 990/990

French

Native language
